Misti Meggs serves as the Chief Commercial Officer at Mohr Partners, Inc., a global corporate real estate advisory firm headquartered in Dallas. In her role, Misti is responsible for overseeing the delivery and execution of corporate real estate solutions to occupier clients across all markets and service lines. She works closely with Mohr Partners' brokers, service-line professionals, third-party strategic partners and shareholders in business development efforts.

With over 16 years of experience at Mohr Partners, Misti has played a pivotal role in building the company's best-in-class research, site-selection and consulting services platforms. Her expertise in corporate real estate advisory services—including labor analytics, logistics, economic incentives and workplace strategy—has prepared her for her current position.

Misti's leadership extends to Mohr Partners' Global Corporate Services team, where she has provided strategic direction to clients and contributed to the development of new service offerings and expansion into new markets. Her contributions have resulted in successful outcomes across diverse industry sectors, ranging from financial services to manufacturing and corporate campuses.

Throughout her tenure at Mohr Partners, Misti has been recognized with numerous awards, including the Mohr Partners Chairman's Award, the MVP for Global Corporate Services and the President's Award. She has also been honored with the Mohr Partners Mentor and Emerging Leader Awards, highlighting her dedication to mentoring and developing talent within the organization.

Misti is dedicated to driving the company's growth, enhancing client relationships and contributing to its evolution as a global full-service corporate real estate advisory and outsourcing services firm.

Misti holds a Texas Real Estate Salesperson License and has earned a Master of Corporate Real Estate (MCR) designation through CoreNet Global, the leading association for corporate real estate and workplace professionals, service providers, and economic developers.
