- 2025 India Conference
"Researcher of the Year" Award

Abhishek Jain serves as a Manager of Research (India) for Mohr Partners, Inc. In this role, he is responsible for driving financial analysis, conducting market analysis, tracking industry trends and providing data-driven insights.

Prior to joining Mohr Partners, Abhishek Jain worked as a Senior Asset Analyst at Nitya Capital, where he played a key role in managing financial models, tracking key performance indicators, and overseeing the financial and operational performance of assets in the company's portfolio. He was responsible for preparing detailed financial reports, conducting in-depth due diligence, and providing insights to optimize asset management strategies. His expertise in financial analysis and model preparation was instrumental in supporting the company's strategic decision-making.

Before his role at Nitya Capital, Abhishek held positions at Arcesium India Private Limited and S&P Global Market Intelligence, where he developed a strong foundation in financial operations. At Arcesium, he contributed to reviewing daily cash reconciliations, managing fund transfers, and onboarding new prime brokers, collaborating closely with internal teams to streamline processes and improve efficiency. At S&P Global, Abhishek processed and standardized financial data, analyzed private placements, and mentored cross-country researchers, demonstrating his strong analytical skills and attention to detail.

Abhishek has been recognized in various other competitions, including securing top positions in state and national-level speech, debate, and research contests.
